## *A Georgian breakfast at Campbell House*

The recipes for the breakfast on October 21<sup>st</sup> are selected from *The Practice of Cookery* by Mrs Dalgairns, who was born in Prince Edward Island about 1788. In 1811 she and her husband moved, first to London, England, then to Dundee, Scotland.

The book represents Mrs Dalgairns' culinary experience as a young woman coming of age in the Regency period. She began work on her recipe collection in the early 1820s and saw the first edition published in London in 1829.

The breakfast will be served on Indian Tree china, an English pattern introduced by the Coalport China Works in 1801, popular in the UK and Canada and manufactured for approximately two centuries.

NB: The word "shrub" is derived from the Arabic sharab, or sherbet.
